

# To the consul of Germany in Kurdistan region- Erbil

## Subject/ Objection

This is (**ALDULAIMI SHADHA NOMAN NAJM**) who applied for German VISA for the purpose of medical treatment in UNIKLINK KOLN hospital in Germany. I have got two very important appointments with two professors in there concerning my health issues;

1. An appointment on '**September 19th, 2018**' with a professor doctor specialist at '**Orthopedics and trauma surgery**' for my back.
2. Another appointment on '**October 4th, 2018**' with a professor doctor specialist at '**Cardiology, pneumology, angiology**' for my heart.

Dear consular, I wonder why my visa has been rejected while I have provided all the necessary documents as your consulate requested. The documents show that I have been to Germany before for the same purpose (Medical Treatment) with my husband because I need him to look after me, If I am a patient I need him as a partner.

In addition, my husband will be responsible of any necessary medical treatment charges on me. My husband and I have submitted all the necessary documents as a proof together including;

1. Title to a land by my name and a Title of a house by my husband's name in Kurdistan region.
2. Health Retirement: a document that shows I have recently retired from teaching because of my health issues.
3. Some other documents regarding my children that show they are old and have also been to Germany before.
4. Other necessary required documents too.

This is our code number (110425) that provides all information about us.

I would really be grateful to receive an acceptance letter from you to be able to check for my health issues as I mentioned above.

For further information or any requirements please contact us on this email or this number.

00 964 750 454 2328

My husband's phone  
number

(Farhad Abdulkareem)

P.S/ please kindly find the attached file of some of the documents regarding this matter.
